ABOUT

LOGIC was established in 1962 with a single primary objective: to research, design, develop, produce and sell industrial and aerospace equipment in Italy and abroad.

Now, not only have we achieved the objectives set, but we have exceeded them. To date, have been realized more than **500 projects**.

- 1962 | Logic is established in Milan
- 1987 | Aermacchi acquires 75%
- 1992 | Aermacchi acquires remaining 25%
- 2002 | Logic obtains Aerospace Certification UNI EN ISO 9001: 2015
| Aermacchi is sold to Finmeccanica, Financial Group Tre Gigli acquires 100%
- 2004 | Logic is transferred in Cassina de Pecchi (MI)
| Logic obtains Aerospace Certification UNI EN 9100:2018
- 2005 | Logic obtains ENAC/EASA - PART 21G POA and PART 145 MOA Civil Certification
- 2017 | Logic obtains DNV- ISO 14001 Process Certification
- 2018 | Logic acquires 64% of Blu Electronic
- 2020 | Logic acquires Gemelli S.p.A.
- 2021 | Logic obtains DNV- ISO 45001 Process Certification
| Logic obtains Civil Certification EASA - PART 210 ADOA
- 2022 | Logic rises 83% of Blu Elettronica
- 2022 | Logic celebrates 60 years in business and more than 500 projects !

Boasting over sixty years of experience in its line of business, Logic now serves the Italian, European and overseas markets with high-tech products used in both civil and military.

The products are currently on-board of well-known platforms both for fixed and rotary wings, some with a long service history and still maintained by Logic.

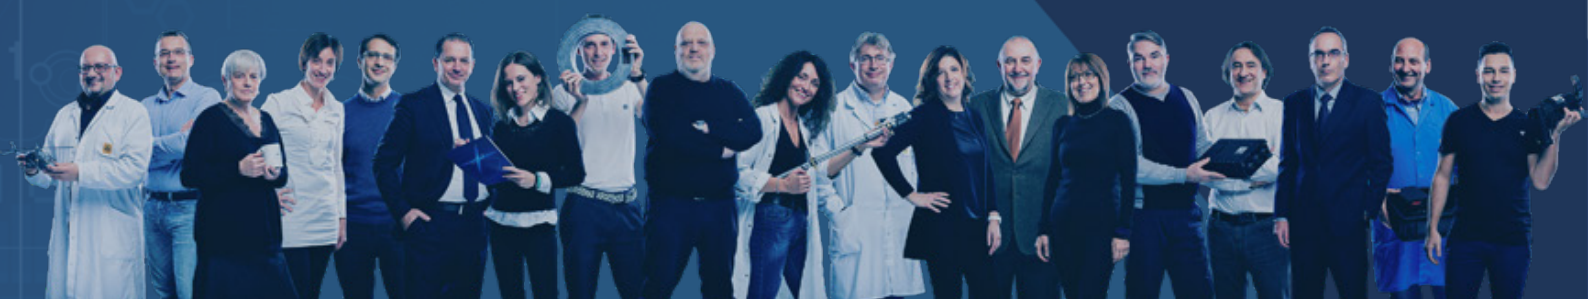

CLIENTS

Our clients are located in South America, North America, Europe, and Asia. Some of them:

OUR PEOPLE BEHIND OUR PRODUCTS

MISSION

Pursue excellence in electronic systems design, development, qualification, production and support to allow our Customers to design safer, more reliable, more sustainable and innovative platforms.

Solid, long term business continuity can be achieved only through **Ethical** and **Sustainable** behaviours

Logic code of Ethics

From environmental, health & safety, energetical (on going) certification moving forward to ESG rating.
